

Real Estate Broker Match

Real Estate Broker Match

Selling investment or residential real estate shouldn't mean scrolling Google or wondering if you're talking to the right broker.

At **Real Estate Broker Match**, we've built something different: a nationwide network of top-tier, vetted brokers matched to you based on what matters - your property type, their track record, and expertise in your market.

The right broker will sell your property faster and for top dollar. The wrong broker will cost you time and leave money on the table.

1

First, we listen.

We start with a conversation about your priorities, property, preferences, and timeline. No forms or algorithms - just a thoughtful conversation.

2

Then, we go to work.

We tap into our nationwide network, interviewing brokers who specialize in your specific asset class and know the market inside and out - including who the likely buyers are.

3

Next, we make the introduction.

We connect you with the broker who is the right fit. If you both agree, the listing and sale process begins.

4

We remain available throughout.

Throughout your sale, we are a phone call away. Questions? Concerns? We're here.

Beyond the Real Estate Broker

We can also connect you with mortgage brokers, Qualified Intermediaries for **1031 exchanges**, and specialists for complex or sensitive transactions.

Who is Behind REBM?

We founded this company after decades of experience.

Alan Fruitman has helped buyers and sellers navigate billions of dollars in transactions since 1993. Alan is a nationally recognized expert in investment real estate and 1031 exchanges, and he authored The NNN Triple Net Property Book.

Rhett Fruitman brings experience from Citi, CBRE, and the 1031 exchange industry.

Together, they bring careful judgment to every broker selection and a personal touch to every client relationship.

You Pay Nothing for This Service

This service costs you nothing. When your property sells, we receive a referral fee from the broker. You simply get connected to the right professional.

The Properties We Cover

We match property owners with brokers who specialize in everything from apartment buildings and single-family homes to shopping centers, triple net retail, industrial warehouses, office buildings, and specialty assets like hotels, self-storage, and senior living facilities.
